

Our history

- 2003: The Company Tischlerei Huber Peter GmbH was founded.
- 2005: After two years it started to grow steadily and has ever since.
- 2008: The carpentry expended its product range immensely by starting to produce saunas. At first we only supplied special parts, custom-made items or special orders of natural wood.

We also produced whole wellness areas and relaxation rooms in modern wood design in different Hotels. As an example for a very unique wellness area we can reference our work in the beautiful Hotel Filana in Ischgl.

The production facilities for higher quantities are now located a few kilometers from our headquarters in Imst. To guarantee the best possible quality in every piece we produce, we don't only employ the most skilled carpenters but also sauna-specialists and mechanics.

- 2012: We started a partnership with Olina kitchen studio, a large distributor of kitchens in central Europe. Thus we plan, sell and install kitchens of all kinds.

- 2016: This Year, we added stairs and staircases to our variety of goods with our partner company Steigwerk.

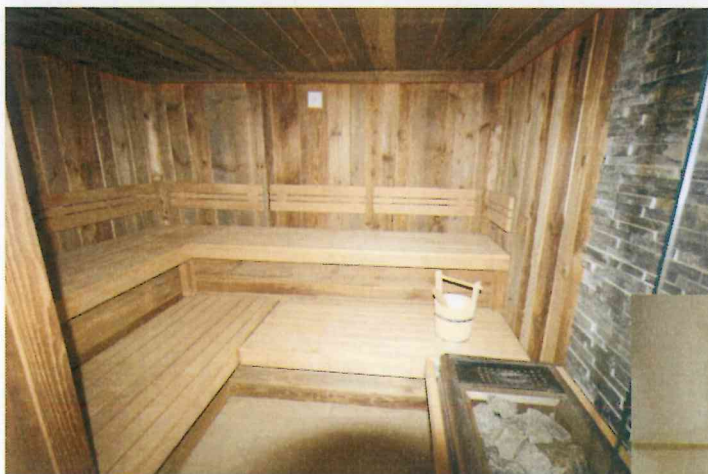

In September 2016 we will open our very own stair studio, for the three regions Tirol, Southtirol and Vorarlberg. Since there are only two other competitors on this market in the Tirol, we can profit from the supply oligopoly and see a high potential for us in said regions.

Although we won't produce the stairs and staircases ourselves, we will take all the necessary measurements, purchase the products and install the customized final good at our customers.

Full-service-provider

Whether modern living or traditional Tirolean style, we fully provide our customers with anything they wish. We offer whole custom-designed apartments and interior designs.

This Year, 2016, we added stairs and staircases to our variety of goods with our partner company

STEIGWERK

In September 2016 we will open our very own stair studio, for the three regions Tirol, Southtirol and Vorarlberg. Since there are only two other competitors on this market in the Tirol, we can profit from the supply oligopoly and see a high potential for us in said regions.

Although we won't produce the stairs and staircases ourselves, we will take all the necessary measurements, draw the drafts and design. Then we will purchase the products and install the customized final good at our customers.

Kitchen

In 2012 we started a partnership with Olina Kitchen-studio, a large distributor of kitchens in central Europe.

Dr.-Pfeifenbergerstraße 12, 6460 Imst

Thus we plan, sell and install kitchens of all kinds.

About Peter Huber

Born as the son of a master carpenter, Mr. Peter Huber decided to follow in his father's footsteps. In 1983 he graduated from the vocational school as a carpenter and passed his master's examination with distinction in 1992.

Since he founded Tischlerei Huber GmbH in 2003 Mr. Peter Huber is autonomous and hopes that one of his three sons will take over the company when he retires.

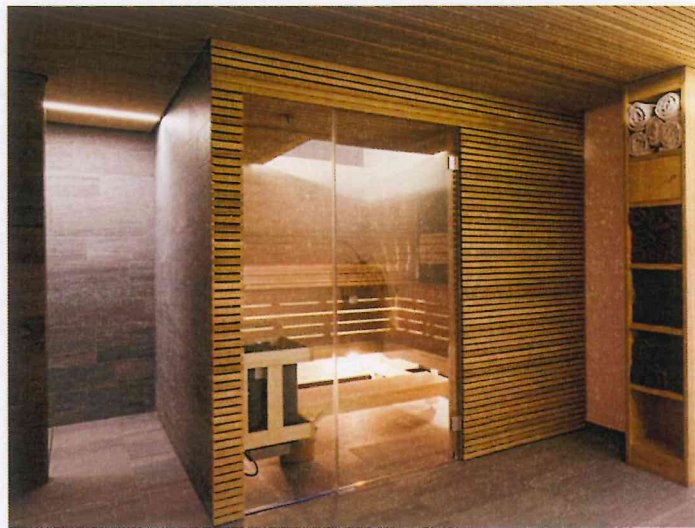

About Daniela Happ

As a fully educated secretary and accountant Ms. Daniela Happ has worked in the sector of carpentry since over 25 years.

She joined the team in 2012 with the partnership with Olina kitchen studio and later the main company.

Now she is responsible for the whole back office and acts as Mr. Hubers personal assistant and secretary.
